12. (Confidential - LLM) BRIEFING Accompanied Zeke Zellmer, ADDS&T, [REDACTED] OSR, and [REDACTED] OSI, to a two-hour session with Dorothy Fosdick and Richard Perle, of the staff of the Permanent Subcommittee on Investigations, Senate Governmental Affairs Committee, on technology transfer, Soviet strategic weapons, and possible SALT verification ramifications of the Boyce/Lee case. There are several follow-up items from Mr. Davis' comments, including providing for their review of a technology transfer study and the name of an OSI study. On technology, a number of areas came up which Perle identified for possible stop gap legislation, including protection of embargoed techniques and products in U.S. owned firms abroad. The briefings were very well received.
